

## IMPROVE PERIOPERATIVE EDUCATION

### Consistently Prepare your Nurses Through Evidence-based Education from AORN

High staff turnover and low physician satisfaction are often caused by lack of confidence in the knowledge and skills of nursing staff. Implementing an evidence-based education program for perioperative nurses will deliver the knowledge and skills necessary for building or re-building that confidence. AORN Periop 101: A Core Curriculum™ Course is the gold standard for preparing nurses to function competently in the OR. The program's rigorous review process ensures the program is always compliant with the most current AORN Perioperative *Standards, Recommended Practices, and Guidelines*. When perioperative nurses learn the “hows” and the “whys” of Perioperative Nursing, they may understand the rationale of their field and unlock better performance.

**“I can't tell you how much Periop 101 has helped our new nurses feel more confident... our morale has improved 100%!”**

Lynn Panici, RN, BSN, CNOR  
Clinical Nurse Educator  
Riverside Medical Center

#### Impact:

##### Improve Staff Retention and Physician Satisfaction

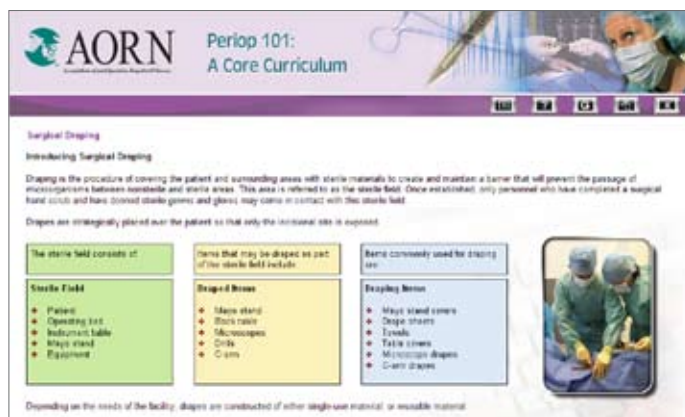

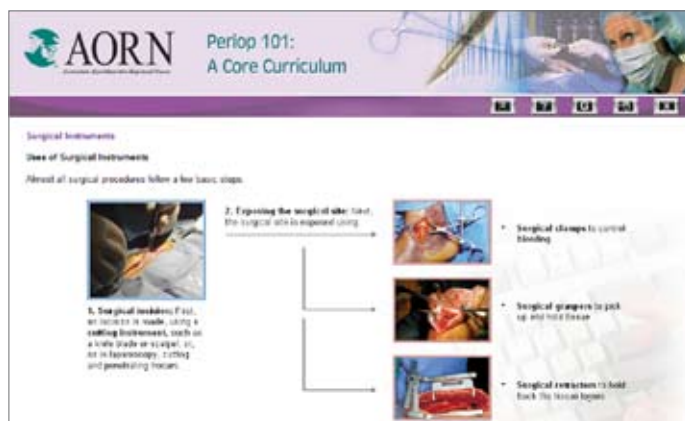

- Implementing evidence-based programs enhances knowledge, skills, and confidence
- Some hospitals have experienced 25% reduction in turnover and improved physician satisfaction after implementing evidence-based education programs

##### Improve Education Efficiency & Costs

- Saves time and money for program development and maintenance
- Educators can focus more on other aspects of training such as clinical skills lab, assessments and preceptorships

#### Features:

- Twenty-six critical and engaging modules (40 contact hours\*)
- A facilitator course (3 contact hours)
- A preceptor course (2.7 contact hours)
- Printable transcript and reference materials
- Includes overviews, reading assignments, glossaries, bibliographies, post-tests, and critical skills assessment checklist
- Complimentary one year AORN membership to each R.N. student after passing the exam

AORN's Periop101: A Core Curriculum™ incorporates clinical skills checklists, assessment activities, and course administrator and preceptor training.

**This library is essential for:**

- Education of Perioperative Nurses
- Demonstrating a commitment to improving perioperative care
- Developing quality training initiatives within clinical setting utilizing a standardized, well-respected program

**This library supports:**

- Perioperative Nurse Training
- Nursing

**User Scale**

- novice
- advanced beginner
- competent
- proficient
- expert

**Recommended For:**

- Nurses
- Education, Risk Management, and HR

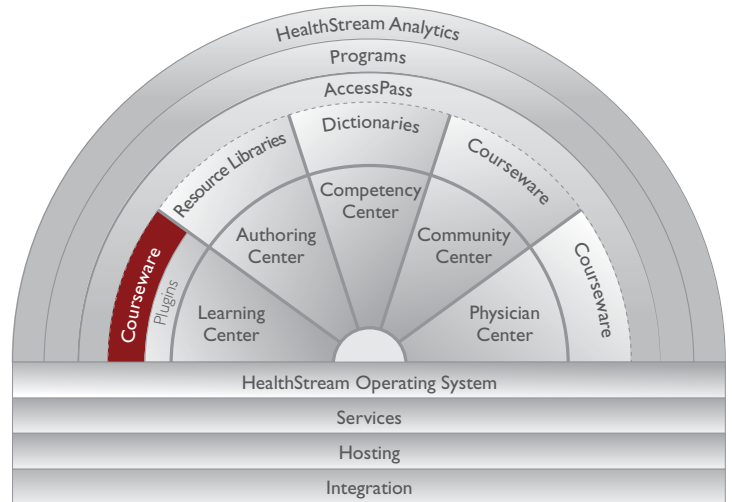

**Learning Modules**

- Anesthesia
- Aseptic Technique
- Documentation
- Electrosurgery
- Endoscopic Surgery
- Environmental Sanitation and Terminal Cleaning
- Hemostasis, Sponges, and Drains
- Introduction to Perioperative Nursing
- Laser Safety
- Latex Allergy
