

IMPROVE BEHAVIORAL HEALTH COMPLIANCE

Meet Your Organization's Diverse Training Needs With Research-driven Content

In today's compliance environment, behavioral health facilities face increased scrutiny concerning adherence to guidelines set forth by the government and regulatory organizations. HealthStream has partnered with Essential Learning, the largest provider of e-learning services in the behavioral health and human services industry, to provide the **Behavioral Health Library**. Developed by leading subject matter experts, the library is a collection of over forty titles designed to meet your diverse training needs and includes the most current regulations and standards of care. The library gives you the flexibility to train employees whenever hiring needs dictate and simplifies tracking training compliance. The interactive courses accommodate various learning styles and contain pre and post tests to measure comprehension. The Behavioral Health Library provides the foundation for your clinical and non-clinical curriculum and will help your organization reduce risk, increase employee competency, and remain compliant.

“Bringing staff together to meet the many hours of annual training requirements was extremely costly and time consuming. With Essential Learning, employees have been able to complete their training when they have free time and even at home on their personal computers if they so choose.”

Steve Sheehan, LCSW,
Director of Staff Development
Mental Health Cooperative, Inc., Tennessee

Impact:

Implement best practices

- Enhance disease-specific diagnostic skills
- Recognize warning signs of exacerbated symptoms
- Implement effective risk-assessment
- Utilize the latest research and evidenced-based practices

Identify behavioral health-specific concerns

- Understand psycho-social implications of mental illness
- Develop cultural competency regarding behavioral health
- Improve crisis de-escalation skills

Maintain compliance

- Meet JCAHO, COA and CARF training requirements
- Over 100 hours of CE credit available
- Develop goal-specific training curriculum

Test Your Knowledge of PTSD Treatments!
