

# PREPARE FOR EMERGENCIES

## Train Staff on Proper Procedures during Emergencies and Pandemics

Healthcare staff responding quickly and appropriately is the key to saving lives in an emergency situation. The **Emergency Preparedness for Healthcare Personnel Library** trains staff on preparedness skills such as proper evacuation procedures, triage for pandemic situations, and recognizing security concerns during an emergency. These courses are designed to help your organization meet federal, state, and Joint Commission training requirements and improve employee competence.

Use the Emergency Preparedness for Healthcare Personnel Library to help meet Joint Commission and CMS training requirements.

### Impact:

#### Save Lives

- Follow appropriate triage and evacuation procedures
- Identify security concerns that affect evacuations
- Review how the Health Care Incident Command Structure is activated

#### Achieve Compliance

- Meet CMS and Joint Commission training requirements

#### Improve Employee Competence

- Reinforce accountability
- Build confidence

### Features:

- Interactive learning activities, web links, and exercises
- Brief quizzes to test comprehension of the material
- Documentation of an individual's completion of a course

The Emergency Preparedness for Healthcare Personnel Library uses realistic scenarios to prepare staff for emergencies.

**This library is essential for:**

- Meeting Joint Commission and the Centers for Medicare and Medicaid Services emergency preparedness training requirements

**This library supports:**

- The National Strategy for Pandemic Influenza guidelines
- Homeland Security preparedness recommendations
- CDC guidelines
- The Health Care Incident Command Structure (ICS)
- WHO Global Influenza Plan

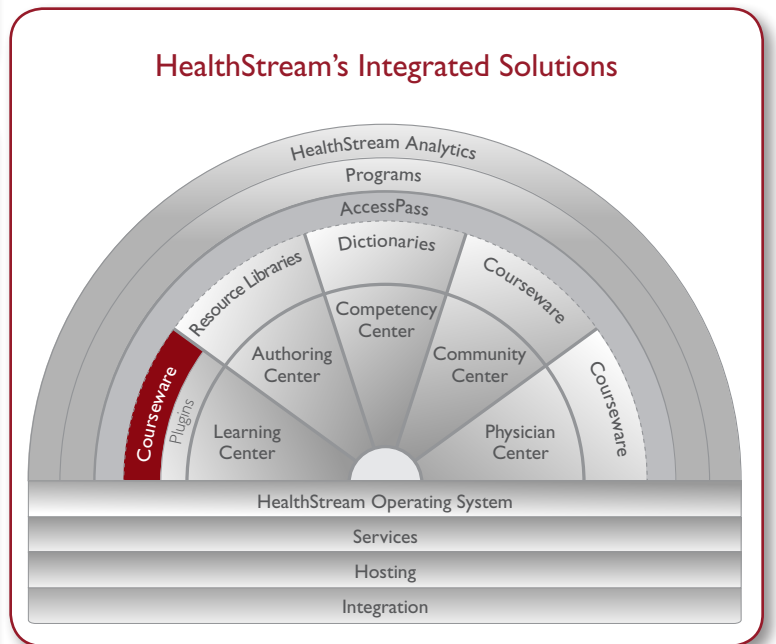

**Courses in the Library**

- Emergency Preparedness for Healthcare at Work and at Home
- Introduction to Radiological Emergency Preparedness
- Mental Health Aspects of Emergencies for Non-Mental Health Professionals
- Pandemic Influenza for Healthcare Workers
- Introduction to Evacuations
