

## PROTECT YOUR FIRST RECEIVERS AND FIRST RESPONDERS

### Train Healthcare Staff to Conduct N95 Fit Testing and Operations Level Decontamination

Hospitals must train first receivers on the proper procedures to avoid contamination. The OSHA Special Topics Library from Yale New Haven Center for Emergency Preparedness and Disaster Response is a collection of compliance-based courses focused on best practices for first receivers and responders and N95 respirator fit tester training. The library trains healthcare staff on proper measures to prepare for emergencies and meets OSHA requirements.

Use the OSHA Special Topics Library from Yale New Haven Center for Emergency Preparedness and Disaster Response to meet Joint Commission and Homeland Security Preparedness Training Recommendations.

#### Impact:

##### Save Lives

- Provide best practices for protection of first receivers
- Prepare for hazardous materials incidents, pandemics, and other emergencies

##### Achieve Compliance

- Meet OSHA requirements
- Meet state bioterrorism training requirements

##### Improve Employee Competence

- Reinforce accountability
- Build confidence

#### Features:

- Interactive learning activities, web links, and exercises
- Brief quizzes to test comprehension of the material
- Documentation of an individual's completion of a course

The OSHA Special Topics Library from Yale New Haven Center for Emergency Preparedness and Disaster Response uses realistic scenarios to train staff for emergencies.
