# CredentialStream®

OneClick CVO for CredentialStream® customers

Simplify the initial and re-credentialing processes
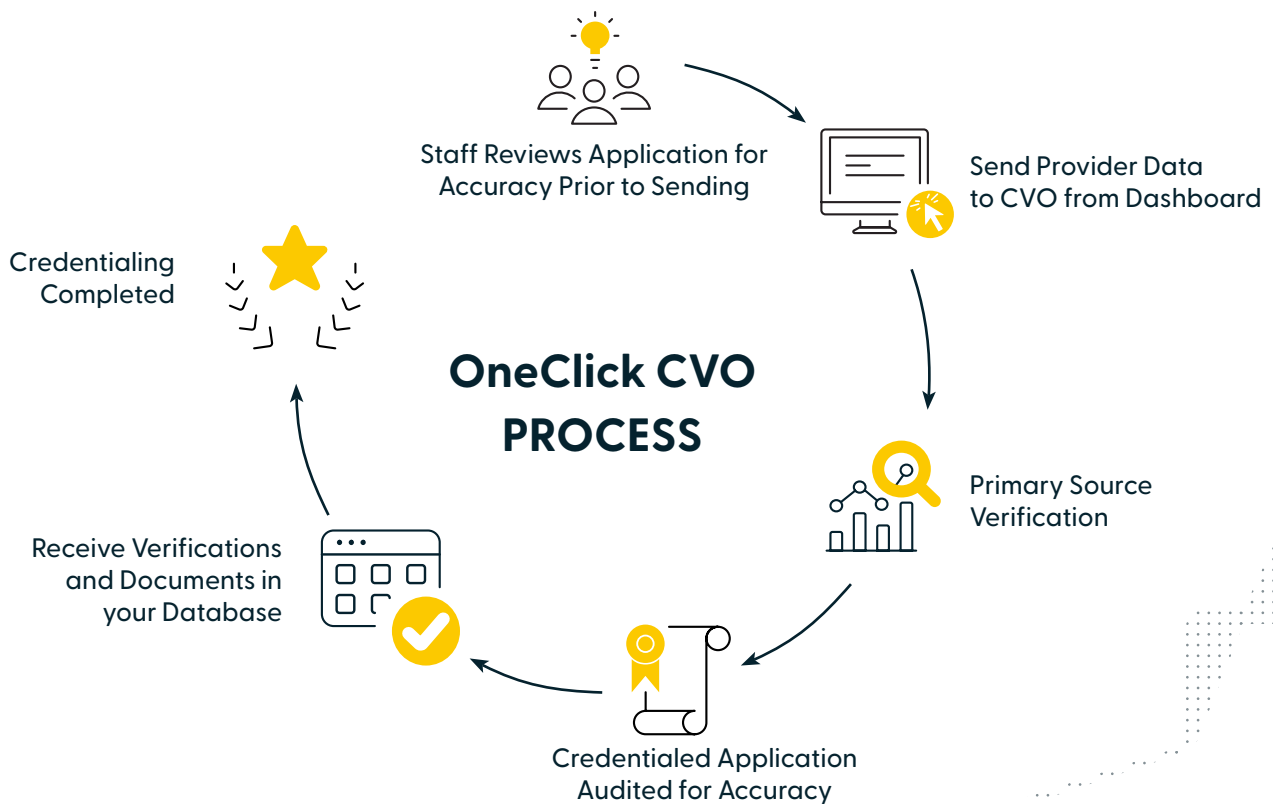

Install with ease and pay as you go

Reduce the time and expense associated with credentialing verification

Verifying credentials can be time-consuming and expensive

Verifying credentials of healthcare professionals is a critical component of ensuring patient safety. Whether managing the process in-house or outsourcing to a third party, it requires time and resources.

Get on-demand support with a single click

Count on OneClick CVO, an easy way to select providers within CredentialStream and request our NCQA-certified CVO's assistance with completing the credentials verification process on your behalf.

OneClick CVO PROCESS

Staff Reviews Application for Accuracy Prior to Sending

Key OneClick CVO features

● **Support both initial and/or re-credentialing processes**

Verify new hires and periodically review existing providers on an ongoing basis

● **Verify all types of provider data**

- Education (Graduate, Medical School)
- Training/Affiliations (Fellowship, Internship, Residency)
- Work History (Current Practice, Gap, Leave of Absence, Prior Practice)
- Credentials/Licenses (CDS, DEA Registration, State Licensure, Specialty Boards, Specialties)
- Malpractice Carriers (Current, Prior)
- References

● **Easy to activate**

Complete an order form and add a widget to your Provider Dashboard

● **Pay as you go**

No long-term contract, pay only for services used

● **Stay in the know**

Track requests in progress and status of each via your Provider Dashboard, alerts and reports

Ensure patient safety with a single click. Use OneClick CVO to support your credentialing verification needs.
