IMPACT

- Increase consistency
- Reduce risk and errors
- Save time and money

REDUCE RISK AND IMPROVE COMPETENCY IN PERINATAL CARE

POEP 4th Edition (POEP4) includes everything you need to provide quality, evidence-based education to all members of your perinatal nursing staff. Designed to orient nurses to the perinatal unit and provide continued education for experienced staff, POEP4 encourages efficient use of resources and will pay for itself many times over in terms of time and cost savings. This program helps ensure every perinatal nurse is taught evidence-based care practices and helps establish consistent care across your unit, providing tools to improve quality of patient care and staff efficiency. POEP4 is newly updated with the latest evidence-based practices and current professional standards of care. An in-depth curriculum with case scenarios, reference lists, pre- and post-tests, participant and instructor/presenter handouts, and instruction manuals are all included.

“I can’t speak enough about how imperative this program is for nurses embarking on a career in perinatal. The information is clear, concise, and organized in a way for us to quickly and effectively introduce new concepts.”

LaShea Watti RNC, C-EFM, BSN, M.Ed
Clinical Nurse Specialist, Wellstar Kennestone Regional Medical Center

POEP4 features high quality voice narration, images, and video clips to aid learning and retention.

IMPACT

- Build a culture of patient safety
- Reduce staff turnover
- Improve patient satisfaction
FEATURES:

• Narrated online modules and comprehensive supporting materials
• Speaker notes
• Participant handouts
• Administrator and participant manuals
• Supports a blended learning approach with a combination of instructor-led and self-directed study
• Knowledge checks incorporated into each module help to evaluate progress and assist in knowledge retention
• Extensive CNE contact hours
• Newly Enhanced, Revised, and Updated Content
  • Improved high-quality images and full-length videos
  • Four new modules not available in POEP 3rd Edition
  • The latest in evidence-based perinatal care and supplemental learning tools

INITIATIVES AND GOALS SUPPORTED:

• Promoting consistency and standardization in perinatal care processes and procedures
• Developing or overhauling perinatal orientation or continuing education programs
• Establishing comprehensive, high-quality care for mothers and infants, from preconception to post-birth education and home care
• Improving the mother and baby’s transition from hospital to home
• Reducing risk and complications of pregnancy

RECOMMENDED FOR:

• New graduate nurses
• Experienced nurses entering perinatal care
• Perinatal continuing education for any nurse
• Advanced practice nurse exam preparation
• Continuing education to maintain certification

COURSEWARE CONTENT:

• Overview of Reproductive Health and Infertility
• Preconception and Interconception Health
• Physiologic and Psychosocial Adaptation to Pregnancy
• Process of Labor and Birth (Normal)
• Process of Labor and Birth (Complications)
• Cesarean Birth and Post Anesthesia Care Unit (PACU)
• Complications of Pregnancy, Parts I – III
• Perinatal Infections
• Postpartum Assessment and Nursing Care
• Newborn Assessment and Nursing Care
• Neonatal Complications
• Perinatal Loss
• Perinatal Safety and Risk Management
