Regulatory compliance requirements can vary across healthcare organizations. Provision of information on regulatory standards in these courses does not certify that the courses wholly or partially address all respective guidelines, standards, and measures that affect a given organization. The HealthStream Regulatory library is intended to provide a foundation for mandatory clinical and non-clinical training to healthcare employees, however it is the responsibility of each organization to review all regulatory courses to determine how the information meets their respective needs. HealthStream makes no representations or warranties that any particular course fulfills the regulatory compliance requirement of any particular healthcare organization, as it is the organization's responsibility to make such final determinations regarding regulatory compliance requirements.
