* The Patient Safety Library is being replaced with the new rewritten, mobile-response **SafetyQ Patient Safety Upgrade Library**.

All current active Patient Safety Library clients will be upgraded to the new SafetyQ Patient Safety Upgrade Library.

This upgrade will not affect any current training assignments. You can complete training in your current cycle and assign the new library to staff when you are ready to do so. We will be retiring the current HealthStream Patient Safety Library (sometime in 2020), which is based on the outdated FLASH format that will no longer be supported at the end of this year.

A more detailed notification with new course listing will be sent to all current Patient Safety Library clients in June.

Product: SafetyQ Patient Safety Upgrade Library

Reason	Library	Course Title	New Version #	Release Date	Status
